

## Critique for NMCBC Open show February 2017

First of all I would like to say a massive thank you to all that entered, I truly had some beautiful hounds. I had an enjoyable day where all exhibitors were gracious with their placings and the committee were so welcoming. What a well run show that I hoped everyone enjoyed. Remember we take the best dogs home!

### MPD (4,1)

1<sup>st</sup> Dawson and Goodall's Rundle Pursuit tri coloured baby boy just 6 months, kind expression, moved well & tracked up, parallel coming and going. Has a lovely depth of chest and kept his top line level at all times on the move. I am sure his handler will have lots of fun with him in the future. 2<sup>nd</sup> Lewis' 'Fallowfield Idiot, black blanketed tri coloured baby boy, kind eye and shorter in muzzle than 1. very much still a baby, but I am sure will grow into a very eye catching young man.

### PD (2)

1st Hunt & Norris' cliffmere Mindful of Shercroft 9 month tri boy with good depth of chest, lovely ear set with long leathers that accentuate that sweet hound expression. Moved well but would benefit from a larger ring. 2<sup>nd</sup> Phillpott's Charterwood Black Baron, this shy young man has a pleasing head with a kind eye, he has lovely substance and a good lay of shoulder he just needs to gain some confidence and beagle attitude and should do well in the ring.

### JD (3)

1<sup>st</sup> PD. 2<sup>nd</sup> Peterson's Troopersway Gladiator, what a picture stacked with everything in the right place, lovely expression with beautifully domed head just preferred the movement coming towards me of 1.

### ND (3,2)

1<sup>st</sup> Lewis' Fallowfield Chancer (AI) 11month tri colour who caught my eye at an earlier show, he has a lovely shape when stacked and did not disappoint when gone over. He moved well and has a beautiful masculine head whilst holding the kind expression only a beagle has. Has a lovely bend of stifle with nice tight feet. One to watch in the future. BPD

### GD (3)

1<sup>st</sup> PD. 2<sup>nd</sup> Moorby and White's Marilyn get off my cloud, a lovely tri colour boy who showing doesn't come naturally to but what a lovely relationship between dog and handler.

### PGD (4,1)

1<sup>st</sup> Burrows' Summerlily Zero to Hero, 20 months larger mould tan and white boy who gave his handler some challenges, good movement excelling in the rear quarters but maybe carrying a little weight, he had a lovely masculine head with a correct dark eye. 2<sup>nd</sup> Hollands Eardley Walk the Talk at Tagshound, a tan and white boy with a lovely kind expression. Has a fantastic relationship with handler and didn't put a foot wrong. This boy's shoulder placement is slightly upright which gives the overall picture that he lacks in length of neck.

LD (10,1)

1<sup>st</sup> Hunt and Norris' Shercroft Apollo, a tan and white boy that has a superb outline when stacked, he has super thighs with an enviable bend of stifle, something that seems to lack in so many. Has a good depth of chest with a good lay of shoulder that shows his fore chest off as one of his assets. For me he is just my type, he is a very houndy dog with a masculine head but still portraying the sweet expression stated within the standard. He has improved with age and I hope he does well I absolutely loved him and would of taken him home in a heartbeat. BD, BIS. 2<sup>nd</sup> Tofts Jarrowley Davenport, an open marked tri colour who has a beautiful outline, he does not do himself any favours when stacked but he can move and moved better as the class went on. He is very parallel coming and going and tracks up in profile. Just needs to relax and show himself off when being stacked and I am sure he will do well.

OD (6,2)

1<sup>st</sup> Harvard's Annabah Felix Blanketed tri colour boy who moved superbly around the ring lovely ear set and length of leathers. Again another quality hound from this kennel, he will always be at the top and I am sure he will gain his title this year, just narrowly losing out on top spot today. RBD. 2<sup>nd</sup> Phillips and Keevence –Keytes Lanesend Segenhoe JW, what a little star who free shows, he rarely puts a step wrong for his handler and gives her his all this sometimes results in him slightly knuckling over, this however can not take away all the rest of his good qualities including a lovely expression and the fact that he is very parallel coming towards and going away from me.

VD (6,3)

1<sup>st</sup> Ayres-Cousins Goldbelles Snowy at Viracocha, Open marked tri colour who is 9 yrs old but still looks like a puppy, such a happy boy with good movement once settled has a lovely relationship with handler and looked a picture stacked. Beautiful masculine head with a lovely dark kind eye. Kept a level top line at all times. 2<sup>nd</sup> Tanners Fallowfield Sporty, a very compact, smart tri colour who is a picture stacked, in profile movement he excelled in reach and drive just preferred the front construction of 1 when coming towards me.

MPB (8,2)

1<sup>st</sup> Tanners Felinoak Baileys N Ice, What a beautiful 8 month tri colour who for her age is very together in her movement, she did not put a step wrong for her handler, she was very true coming and going and also tracked up in profile movement whilst keeping a level top line. She has a very dark eye that accentuates her feminine expression. 2<sup>nd</sup> Goldberg's Molsend Rumour, a beautiful black blanket little girl who I can see doing very well in the future. At the moment she is still very immature which isn't a bad thing. She needs to just balance out a bit as at this present time she is slightly bum high.

PD (6,3)

1<sup>st</sup> MPB. 2<sup>nd</sup> Lennard's Butterow Quaver, mottled feminine girly who is just 6 months she had a beautifully domed head with the correct length of leathers and a correct bite. Moved in profile well but just slightly pinning in when coming towards me.

JB (7)

1<sup>st</sup> Jones' Clairdale Damia. This Little tan and white girl caught my eye as soon as she entered the ring, she has the most feminine beautiful head and expression, she moves totally parallel fore and away and also has real reach and drive in profile movement. Again when stacked her bend of stifle really showed and her outline was just perfect. She was beautifully presented and I will watch her future closely as I think she could do very well in the show ring. A little girl I could quite happily take home. BB, RBIS. 2<sup>nd</sup> Henningsson and Dundas' Julemark Pandora, Another beautiful tan and white lady who although is slightly unbalanced completely showed some of the others how to move, she may be little but she has big personality that I just couldn't ignore. Kept her top line level at all times and excelled in reach and drive. If they could bottle her movement they would make a fortune.

NB (7)

1<sup>st</sup> Goldebergs Broadshore Abbracci at Molsend, another beautiful Mottle and at 8 months old she is very together. She has a beautiful head with a fabulous dark eye, good length of muzzle and nice length of neck. When stacked had a gorgeous outline and slightly better in back end than 2. 2<sup>nd</sup> Lewis' Fallowfield Xena, a Tan and white baby who was parallel when moving around the ring, short coupled, level topline but for me she just lacked in back end compared to 1.

GB (11,4)

1<sup>st</sup> JB. 2<sup>nd</sup> Hunt and Norris' Shercroft Arina, a mottled tan and white slighter lighter in bone and finer in head than 1 but very true just coming and going. Moved with reach and drive but for me could do with a little more substance. Completely different to her brother who won BIS.

PGB (10,3)

1<sup>st</sup> Taylor's Deaconfield Innocence, Tri colour bitch who is parallel coming and going had a lovely straight front leading to tight feet. She had a very feminine head with a dark eye, good length in leathers and beautiful domed head. Good neck leading to a level top line. 2<sup>nd</sup> Arden's Madika Spot On, a Beautiful bitch whom I have always admired from ringside, no disappointments going over this bitch who is so pretty, has such a great presence in the ring and when stacked is a picture, she is just my cup of tea but today she just decided to flick her right foot when coming towards me.

LB (11,3)

1<sup>st</sup> Burrows' Maid in Oz, Tri colour who is such a little show woman and is so correct. She moved with reach and drive and is completely parallel coming towards me. Correct bite with

a lovely kind eye and expression. Short coupled with a level topline and great bend of stifle. Just lost out for RBB. 2<sup>nd</sup> Harvards Annavah Imagine, Open tri bitch who is beautiful, everything in the right places and moved with ease she just didn't move as parallel as 1. Would like to see her move in a larger ring as I think she would settle more. Has the potential to do very well.

OB (6,2)

1<sup>st</sup> Harvards Annavah Knick Knack, an open marked bitch with a sweet expression, all of the dogs from this kennel can move around the ring with ease. She is correctly built with a good lay of shoulder leading into a level top line and correct tail carriage just missed out on BB. RBB. 2<sup>nd</sup> Vickers' Stormpasture Juliette of Rosroden, a faded blanket tri colour who moved like a dream. She has a beautiful head an expression with lovely long leathers, correct bite, level topline and kept this level at all times. She moved like a true show woman around the ring, just slightly disappointed in that she was not gleaming like most others in the show.

VB (10,2)

1<sup>st</sup> Phillips' Brialey Tu Tira for Lanesend (aus imp) Have had the privilege to judge this bitch before and did her well then, she doesn't let her handler down at anytime, she moves with such beagle attitude excelling in reach and drive and tracking up in profile. She was so sound coming and going away from me and has such a sweet expression. A bitch who I am sure will gain many more accolades within her show career. 2<sup>nd</sup> Henningsson & Dundas' Ch Julemark Hussy, what a bitch she still makes me catch my breath when she moves and oh how I could watch her all day everyday. Everything is totally in the correct place but age is starting to show in her overall appearance. A little lady who still enjoys her day out and gives her handler all that she has. A great example of the breed standard.
